Install Instructions

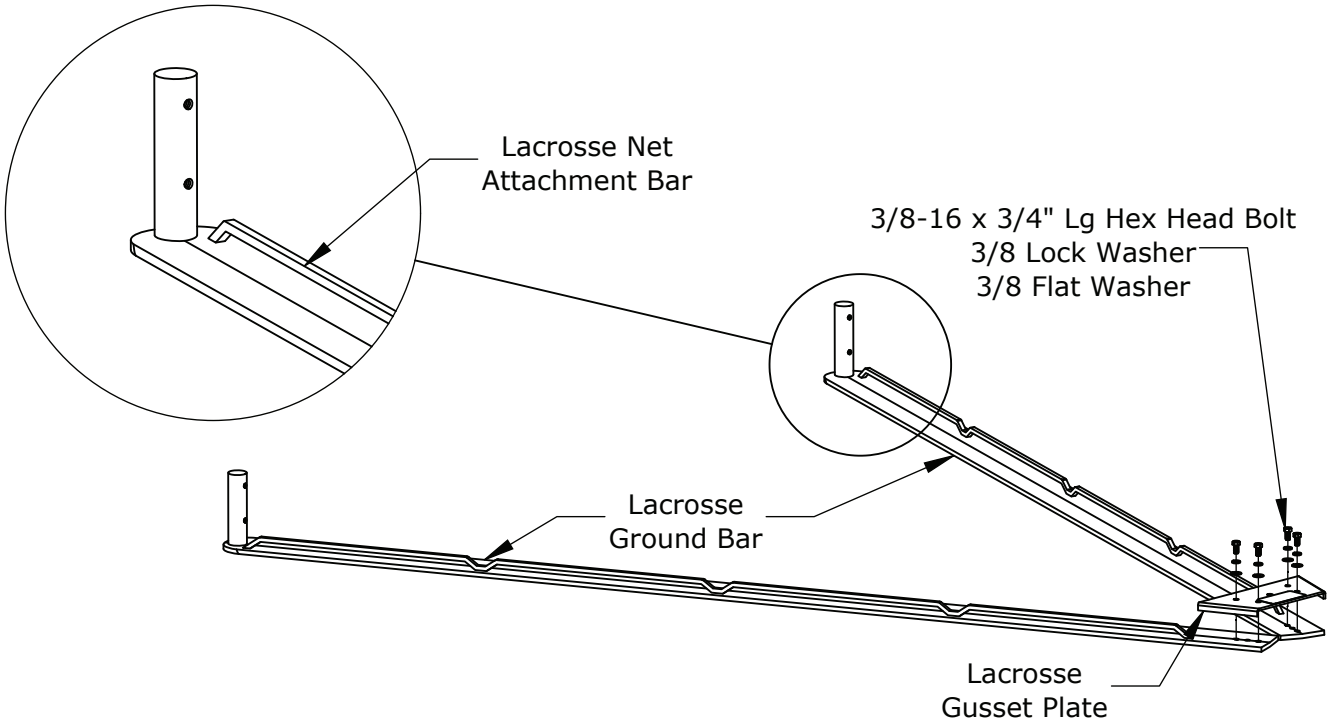

Lacrosse Goal

Product No.	Product Description
LCG	Lacrosse Goal, Official Size 6'H x 6'W x 7'L

Lacrosse Goal Assembly Detail..... ID-00558

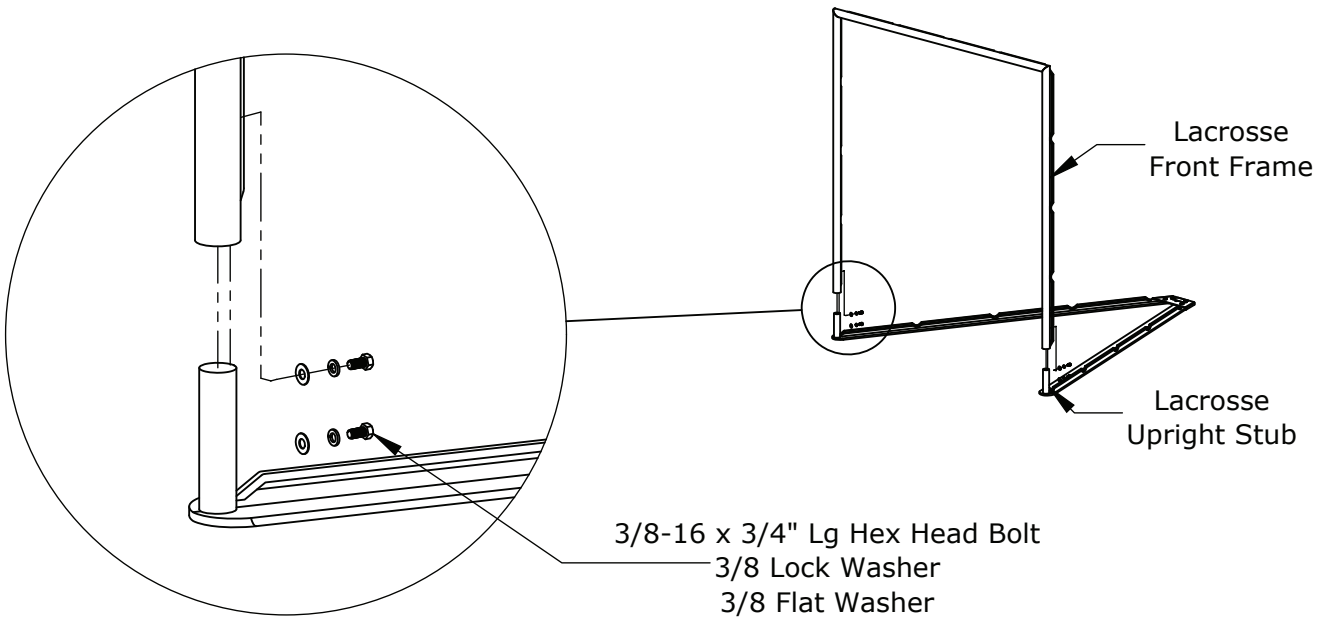

Step 1: Ground Bar Assembly

Position Lacrosse Ground Bars flat on the field in a "V" formation, and orientate Ground Bars so the Lacrosse Net Attachment Bars are located externally as shown below. Fasten the Lacrosse Gusset Plate loosely onto the Lacrosse Ground Bars using the hardware called out shown below.

Step 2: Front Frame Assembly

Place the Lacrosse Front Frame onto the Lacrosse Upright Stub, and fasten using the hardware shown below. Tighten all hardware.

	SHEET 1 OF 4

Step 3: Prepping the Lacrosse Goal Net

Unpack the Lacrosse Goal Net from box, and place on the ground to determine the location of the (3) edges that are 6' and the (2) edges that are 9.5'. The (3) 6' edges can now be hung onto the matching geometry of the Lacrosse Goal. Temporarily secure the Lacrosse Goal Net onto the Lacrosse Front Frame. Stretch the lower portion of the Lacrosse Goal Net until the net can be temporarily secured at the apex of the Lacrosse Ground Bars. Cut the Binding Rope into (4) equal pieces, and cauterize all Binding Rope ends to prevent fraying.

Step 4: Anchoring the Lacrosse Goal Net Binding Rope onto the Lacrosse Goal

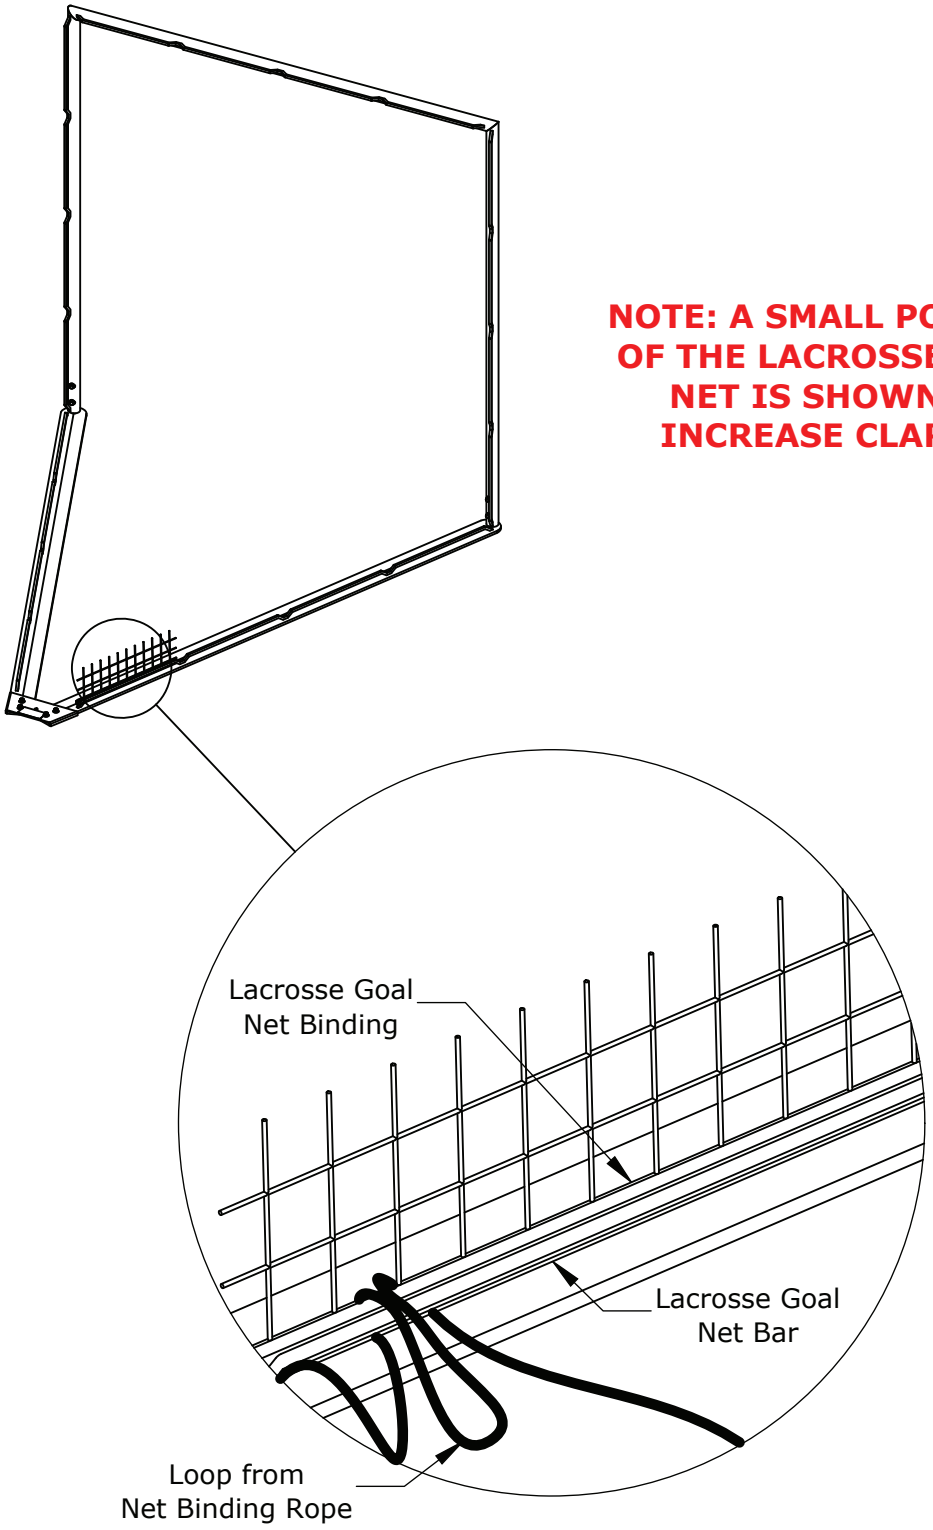

Begin by anchoring the one end of the Binding Rope using a double knot onto the Net Bar.

Step 5: Lashing the Lacrosse Goal Net onto the Lacrosse Goal

Create a loop and slide loop under the Net Bar. Guide loop behind the Net binding, up over both the Binding and Net Bar, and through a Net Square as shown below.

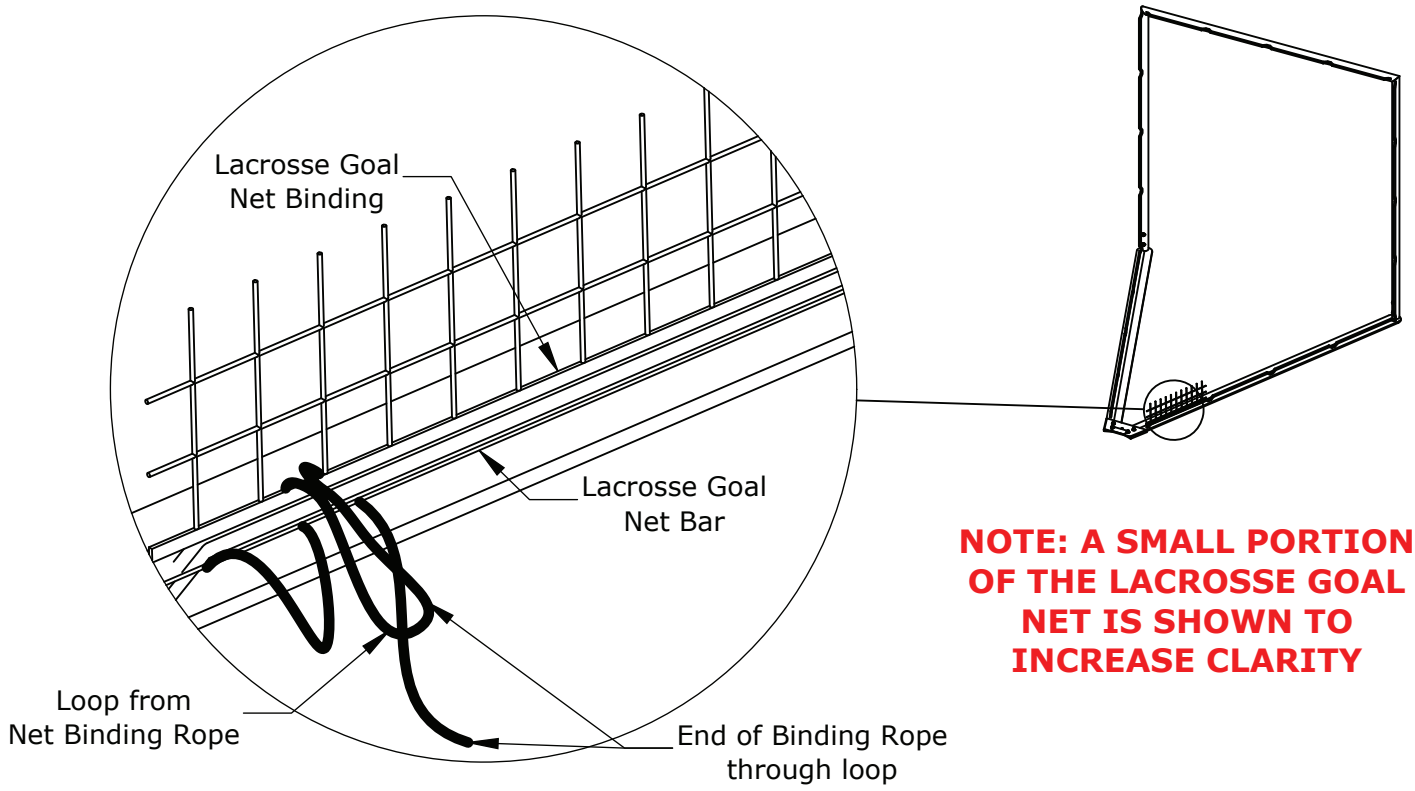

NOTE: A SMALL PORTION OF THE LACROSSE GOAL NET IS SHOWN TO INCREASE CLARITY

Step 6: Lashing the Lacrosse Goal Net onto the Lacrosse Goal

Guide the loose end of the Binding Rope through the newly created loop and pull through, tightening down firmly onto the Net Bar. Repeat for every square opening of the Net in the direction shown below until the Binding Rope reaches the opposing end of the Goal or the Binding Rope has been completely used. Anchor the opposing end of the Binding Rope by double knotting into position.

NOTE: A SMALL PORTION OF THE LACROSSE GOAL NET IS SHOWN TO INCREASE CLARITY
